- 
- A decorative graphic in the bottom-left corner of the slide. It features a network of interconnected nodes (represented by small circles) and lines (edges), forming a mesh-like structure. The nodes are colored in shades of gray and yellow, and the lines are thin and light gray. The overall shape is roughly circular, with some lines extending outwards.
- ▶ Mobile Crowd Sensing (MCS) framework.
  - ▶ Data Collection Element (Fog node) will verify the signature and do message pre-processing.
  - ▶ While Mobile User (MU) leave from BS1 to BS2, BS2 will notify Key Authority to move MU's public key from ring1 to ring2.
